Rounded end buttons

1 Make new image, white background.

2 Go to the channels pallet: **Windows>Show Channels**. Make a new channel and click on it to make it active.

3 Select the Radial Marquee Tool and make a small Circle on the left side of the image.

4 Press "X" on the keyboard. Now press the delete key. This should fill it with white.

5 Select the circle with the Rectangular Marquee. Hold down Alt-Ctrl-Shift (Mac: Option-Command- Shift) and drag a copy just to the right side of the image.

6 With the Rectangular Marquee, select the top and bottoms of each circle. Press the Delete key to fill with white.

7 Hold down the Ctrl key (Mac: Command) and click on the channel to select the button. Go back to Layers: **Windows>Show Layers**. Click on the background Layer to activate it. Now make a new layer.

8 Select a color from the Swatches Pallet and fill the selection using the Paint Bucket Tool. Now Deselect: Ctrl -D (Mac: Command -D)

9 To bevel the button, go to **Layer>Effects>Bevel and Emboss**. If you're not familiar with the Layer Effects I have tips on this page [here](#).
