Techno Dots

1 Make a new image with a white background. Size doesn't matter.

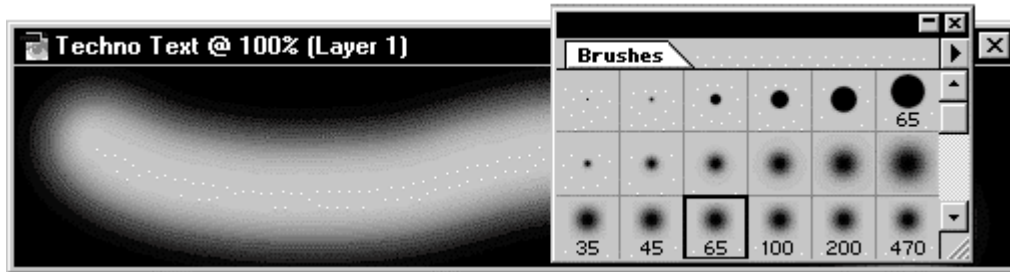

2 Switch to the channels pallet: **Windows>Show Channels**. Make a new channel

▲
New Channel Icon

3 Select a **light gray** color from the Swatches pallet. Now select the Paintbrush tool and then select a soft brush from the brushed pallet. Paint a wavy stroke on this channel

4 Go to **Filter>Pixelate>Color Halftone**. Click OK.

5 Switch back to the Layers Pallet. Click on the background layer. Now make a new layer. Go to **Selection>Load Selection** and select "Alpha 1" where is say Channel

6 Choose a color from the Swatches Pallet. Go to **Edit>Fill** and for contents choose foreground color and click

OK.

Add more effects to the dots with Photoshop's Layer Effects: **Layer>Effects**.

Drop Shadow

Bevel and

Embos

Inner Shadow
