Photoshop Tips

How to make a triangle

Ok first follow these 4 steps below.

Line Opt Normal Weigh Arrowhead Shape 3. Mai	1. Oouble Click This tions Opacity: 100 opacit	s line tool 2. then you will see this!
	Arrowhead Shape	×
4.	<u>W</u> idth: 500 %	OK
will see this!	Length: 400 %	Cancel
	<u>C</u> oncavity: 0 %	
I	Make your settings li then click OK!	ike mine,

Ok now go back to your work area and hold down the Shift key and drag out a Arrowhead, but don't draw the tail of it, just the triangle part. If you want a bigger Triangle, then change the "Weight" of your shape in the line options like shown above. You can make it as big as the screen if you want to.
